Dedicated	Team-oriented	Driven	Facilitated	Organized

Task: Use the words you chose or created to begin describing yourself and your career goals.

Hi my name is John Doe, and I currently go to Tallahassee Community College. I am completing a Associates degree, and studying Business Administration. Once I graduate I hope to work as/in Administrative Assistant. I have experience in managment, customer service, and healthcare settings. I also really value/am interested in working for a healthcare agency that supports the Tallahassee community. In the last two years, I have worked hard at Tallahassee Senior Center to build the skills needed to navigate healthcare agencies and successfully support both staff and patients, which is why I'm so excited about this opportunity with Capital Regional Medical Center.

Tips: be personable, be concise, and make it your own!
